

COURSE SLIDES

Claude Microsoft 365 Masterclass (C197)

Course Code: C197

Conducted by Tertiary Infotech Academy Pte Ltd · UEN 201200696W

Version v2.0 · 12 August 2026

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

COURSE ADMINISTRATION

Welcome & Housekeeping

About the Trainer

Jim Gan Chiu Liang
(JL)

Principal Trainer
Tertiary Infotech Academy Pte. Ltd.

ROLE

Principal Trainer, Tertiary Infotech Academy Pte. Ltd.

CERTIFICATION

Industry certified in the subject area of this course.

DELIVERS

Professional short courses for Tertiary Infotech Academy.

FOUNDER

Founder and lead instructor at Tertiary Infotech / Tertiary Courses.

Let's Know Each Other

1 Your name and organisation / role.

2 Your experience with this subject (if any).

3 What you want to be able to do after this course.

Ground Rules

1

Set your mobile phone to silent mode.

2

Participate actively — no question is too small.

3

Mutual respect: agree to disagree.

4

One conversation at a time.

5

Be punctual; return from breaks on time.

6

Learn by doing — try every hands-on lab.

Your Connected Course Workspace

1

Visual course deck

Concepts, process maps, prompt anatomy and realistic Office exhibits.

2

Detailed Learner Guide

Click-level procedures, full prompts, commands, checks and troubleshooting.

3

Eleven lab folders

A connected Lumina Living workflow with a README in every activity folder.

4

Native Office artifacts

Editable Word, Excel and PowerPoint samples plus reusable review templates.

Portal: <https://lms-tms.tertiaryinfotech.com>

Lesson Plan — One Connected Company Day

Morning

- Morning · 9:30am–1:10pm
 - Topic 1: Governed Foundations for Claude and Microsoft 365 (Labs 1–3)
 - Topic 2: Company Planning, Reporting and Policy Work (Labs 4–6)

Afternoon

- Afternoon · 2:10pm–6:30pm
 - Topic 3: Financial Analysis and Executive Storytelling (Labs 7–8)
 - Topic 4: Agentic Coordination with Outlook, Cowork and Claude Code (Labs 9–11)
- Daily timing
 - 8 scheduled hours excluding lunch · 7.5 instructional hours · two tea breaks

Learning Outcomes

1

Choose the right Claude surface

Select the right Claude and Microsoft 365 operating surface for a governed company task.

2

Connect governed context

Connect approved Microsoft 365 context and map permissions, sources and evidence boundaries.

3

Prompt with an audit trail

Direct Claude with an auditable prompt contract and a human approval gate.

4

Plan marketing

Produce a decision-ready marketing plan in Word from approved company evidence.

5

Shape strategy

Develop an aligned strategic plan with choices, initiatives, owners, measures and risks.

6

Draft sustainability and HR content

Draft a sustainability report section and HR policy using source, legal and management review controls.

Learning Outcomes (cont.)

7

Analyse finance in Excel

Build a formula-driven financial analysis and executive dashboard in Excel.

8

Tell the story in PowerPoint

Create a highly visual strategic and marketing PowerPoint with native Excel charts and evidence traceability.

9

Coordinate Outlook safely

Triage Outlook messages and prepare approval-based replies without bypassing the human send gate.

10

Orchestrate with Claude Cowork

Use Claude Cowork with Microsoft 365 context to coordinate a multi-file planning workflow.

11

Automate with Claude Code

Use Claude Code and approved connectors to update Excel, search Outlook and produce a daily management brief.

How You'll Learn

CORE CONCEPTS

The Lumina Living Management Challenge

One Company, One Connected Evidence Chain

1

Plan the year — translate the company's growth ambition into marketing priorities, strategic initiatives and governed policies.

2

Model the economics — test revenue, margin, budget and scenario assumptions in an auditable Excel workbook.

3

Communicate the decision — build a company-standard executive deck using verified Word and Excel content.

4

Coordinate the work — triage Outlook, use Cowork for multi-file execution and use Claude Code for a repeatable daily brief.

The FRAME Control Loop

1

Frame

Name the decision, audience, permitted sources and definition of done.

2

Retrieve

Bring only authorised files, messages and ranges into context.

3

Act

Ask Claude to draft or edit the smallest useful unit in the native work product.

4

Measure

Verify figures, claims, formulas, formatting and policy constraints.

5

Endorse

Record assumptions and obtain the named human approval before save, send or release.

From Polished Output to Trusted Work

A polished output is not a trusted output until its evidence, logic and owner are visible.

The Company Pack You Will Build

Plans and policies

- Marketing plan
- Strategic plan
- Sustainability and HR drafts

Analysis and story

- Financial model
- Executive dashboard
- Strategic and marketing deck

Agentic coordination

- Outlook draft workflow
- Cowork project
- Claude Code daily brief

How Every Activity Connects

1

Open the lab folder and inspect its realistic Word, Excel and PowerPoint company artifacts.

2

Use the named evidence and prompt contract to create or improve a work product.

3

Challenge the result against formulas, sources, policy boundaries and company templates.

4

Record the approval, retain the verified artifact and pass only approved context to the next activity.

PROMPTING FOR OFFICE WORK

Prompts That Produce Reviewable Work

Word · Excel · PowerPoint · evidence · constraints · approval

The Five-Part Prompt Contract

1

Name the business result

State the decision, audience and artifact—not merely the app you are using.

2

Ground the work

Name the open file, table, sheet, section or approved message set Claude may use.

3

Constrain the edit

Define scope, length, style, formula method, layout and anything Claude must not change.

4

Demand evidence

Require cell, range, heading or email citations and ask Claude to flag missing information.

5

Set the approval gate

Ask for proposed changes first; verify them before accepting, saving, sending or publishing.

GOOD PROMPT EXAMPLE

Word Prompt — Draft a decision-ready strategy section

1	Name the business result	Using the open FY2027 strategy brief, draft only the 'Strategic choices' section for the Executive Committee.
2	Ground the work	Preserve the existing Heading 1/2 styles.
3	Constrain the edit	For each choice include rationale, owner, measure and Q1 milestone.
4	Demand evidence	Use only facts stated in the brief; cite the source heading and flag missing evidence.
5	Set the approval gate	Show proposed text before editing the document.

Copy the complete Word prompt from the Learner Guide or matching lab folder; verify every source and proposed edit.

GOOD PROMPT EXAMPLE

Excel Prompt — Build an auditable financial view

1	Name the business result	Using tblFinance in the open workbook, build a formula-driven Actual vs Budget analysis by month and channel.
2	Ground the work	Include Revenue, Gross Profit, Gross Margin and Operating Contribution.
3	Constrain the edit	Use native formulas or pivots, cite source ranges, keep assumptions on the Assumptions sheet, and do not paste hardcoded totals.
4	Demand evidence	Before editing, list the formulas and checks you will apply.
5	Set the approval gate	Return the proposed change for human verification before editing, saving or releasing the file.

Copy the complete Excel prompt from the Learner Guide or matching lab folder; verify every source and proposed edit.

GOOD PROMPT EXAMPLE

PowerPoint Prompt — Create an executive planning story

1	Name the business result	Using the open company template, the approved strategy document and verified Excel dashboard, build an eight-slide Executive Committee story.
2	Ground the work	Use conclusion-led titles, one message per slide, native editable charts linked to the approved summary ranges, and concise speaker notes.
3	Constrain the edit	Preserve the slide master and brand rules.
4	Demand evidence	Add a source note to each data slide and flag any figure that does not reconcile.
5	Set the approval gate	Return the proposed change for human verification before editing, saving or releasing the file.

Copy the complete PowerPoint prompt from the Learner Guide or matching lab folder; verify every source and proposed edit.

Claude-Generated Planning and Policy Samples

C197 · CLAUDE-GENERATED WORK SAMPLE

Create a Company Marketing Plan in Word

Lumina Living Pte Ltd · Illustrative reviewed output

Management outcome Which segments, channels and campaigns should receive the marketing budget?

Executive decision

Prioritise repeat customers and profitable digital growth while pausing broad discount-led acquisition.

Marketing choices

Focus owned channels, targeted lifecycle campaigns and higher-margin product stories.

Finding / choice	Evidence	Owner	Next review
Marketing choices item 1	FY2026 channel results	Marketing and E-commerce	Q1 FY2027
Marketing choices item 2	Customer segment note	Marketing and E-commerce	Q2 FY2027
Marketing choices item 3	Campaign calendar	Marketing and E-commerce	Q3 FY2027

90-day action

Launch two measured pilots with stop/go rules, accountable owners and a reconciled budget.

Source and approval note

Illustrative output generated for training from fictional Lumina Living sources. Figures and claims require source reconciliation. Release status: Pending named human approval.

LAB 04

FY2027 Marketing Plan

C197 · CLAUDE-GENERATED WORK SAMPLE

Develop a Strategic Plan with Owners and Measures

Lumina Living Pte Ltd · Illustrative reviewed output

Management outcome Which strategic choices and initiatives should the Executive Committee approve?

Strategic ambition

Build a profitable omnichannel growth engine with a differentiated home-lifestyle proposition.

Strategic choices

Win in curated ranges, integrate customer journeys and strengthen commercial execution.

Finding / choice	Evidence	Owner	Next review
Strategic choices item 1	CEO ambition note	Corporate Strategy	Q1 FY2027
Strategic choices item 2	Commercial performance summary	Corporate Strategy	Q2 FY2027
Strategic choices item 3	Operations capability review	Corporate Strategy	Q3 FY2027

Governance

Six initiatives report through a quarterly scorecard with explicit dependencies and risk owners.

Source and approval note

Illustrative output generated for training from fictional Lumina Living sources. Figures and claims require source reconciliation. Release status: Pending named human approval.

LAB 05

Three-Year Strategic Plan

C197 · CLAUDE-GENERATED WORK SAMPLE

Draft Sustainability Reporting and HR Policy

Lumina Living Pte Ltd · Illustrative reviewed output

Management outcome Is the evidence and control environment strong enough for internal release?

Reporting boundary

Singapore retail, office and directly controlled e-commerce operations for FY2026.

Sustainability performance

Energy and waste movements are reported with method notes and limitations; no unsupported green claim is made.

Flexible-work policy

Eligibility is role-based, decisions are documented and exceptions have a transparent review route.

Source and approval note

Illustrative output generated for training from fictional Lumina Living sources. Figures and claims require source reconciliation. Release status: Pending named human approval.

LAB 06

Sustainability and HR Drafts

Claude-Generated Analysis and Executive Samples

LUMINA LIVING · FY2026 FINANCIAL DASHBOARD

REVENUE	GROSS PROFIT	GROSS MARGIN	OPERATING CONTRIBUTION
\$270,739	\$129,550	47.9%	-\$24,814

Monthly revenue: actual vs budget

Monthly budget variance

Operating contribution by channel

FINITIO
365 margin = Gross profit / Revenue
Operating contribution deducts fulfillment and marketing budget
Scenario assumptions remain separate from actuals
data is fictional training material
it refreshed: 12 Aug 2026

LAB 07

Excel Financial Dashboard

MARKETING

Marketing allocation follows customer and margin evidence

Illustrative channel contribution

DECISION LOGIC

1 Protect profitable retail

2 Scale owned digital

3 Tighten marketplace economics

LAB 08

Strategy and Marketing PowerPoint

C197 · CLAUDE-GENERATED WORK SAMPLE

Triage and Prepare Approved Outlook Replies

Lumina Living Pte Ltd · Illustrative reviewed output

Management outcome Which messages need escalation, a standard draft, a tailored reply or no action?

Thread summary

The Executive Committee needs the reviewed pack, three owned actions and a confirmed review date.

Draft response

A concise reply confirms decisions and attachments and remains unsent until recipient and version checks are complete.

Meeting brief

Purpose, agenda, pre-read and one decision required are explicit.

Source and approval note

Illustrative output generated for training from fictional Lumina Living sources. Figures and claims require source reconciliation. Release status: Pending named human approval.

LAB 09

Outlook Thread and Reply Pack

LUMINA LIVING · FY2026 FINANCIAL DASHBOARD

REVENUE
\$270,739

GROSS PROFIT
\$129,550

GROSS MARGIN
47.9%

OPERATING CONTRIBUTION
-\$24,814

Monthly revenue: actual vs budget

Actual vs Budget

Tests whether growth is on plan and where monthly variance emerges.

Operating contribution by channel

Contribution by Channel

Separates revenue scale from contribution quality for resource decisions.

TOPIC 01

Governed Foundations for Claude and Microsoft 365

Operating surfaces · Microsoft 365 connector · permissions · evidence · prompting · human approval

Key Concepts — Governed Foundations for Claude and Microsoft 365

1

Four operating surfaces — distinguish Claude for Microsoft 365 add-ins, the Microsoft 365 connector in Claude, Anthropic Claude Cowork, and Claude-powered experiences inside Microsoft 365 Copilot.

2

Open-file context — the Word, Excel, PowerPoint and Outlook add-ins work with the active item and preserve native structures such as styles, formulas and slide masters.

3

Connected work context — the Microsoft 365 connector can search authorised SharePoint, OneDrive, Outlook and Teams content; optional write tools require additional tenant consent.

4

Least privilege — access follows the signed-in user's existing permissions; broad access is not a substitute for a well-scoped business task.

5

Evidence contract — every material claim names its source location, confidence and unresolved gap before the output is polished.

6

Human accountability — reviewed changes, formulas, recipients and approval records make AI-assisted work defensible.

Hands-On Labs — Governed Foundations for Claude and Microsoft 365

Lab 1

- Choose and Activate the Right Claude Surface — A completed operating-surface decision matrix and environment-readiness record.

Lab 2

- Connect Microsoft 365 Context and Map Permissions — A least-privilege source register with access status, evidence owner, retention note and approved use.

Lab 3

- Build an Auditable Prompt and Review Contract — A reusable cross-app prompt library, prompt test log and acceptance checklist.

Choose and Activate the Right Claude Surface

LAB 1

Compare the Office add-ins, Microsoft 365 connector, Claude Cowork and Claude-powered Microsoft 365 Copilot experiences before touching company data.

You'll build

A completed operating-surface decision matrix and environment-readiness record.

Tools: Claude for Microsoft 365, Claude connector, Claude Cowork, Microsoft 365 Copilot, admin deployment

Claude-Generated Company Work Sample

WHAT TO NOTICE

C197 · CLAUDE-GENERATED WORK SAMPLE

Choose and Activate the Right Claude Surface

Lumina Living Pte Ltd · Illustrative reviewed output

Management outcome Which Claude surface should each planning, analysis and communication task use?

Management outcome
Select and activate the Claude surface that fits a governed Lumina Living task.

Evidence boundary
IT acceptable-use note; Microsoft 365 tenant capability register; FY2027 planning brief

Approval
Final approval: Chief Operating Officer

Source and approval note
Illustrative output generated for training from fictional Lumina Living sources. Figures and claims require source reconciliation. Release status: Pending named human approval.

1

Business outcome

The opening section states the management decision and intended use.

2

Evidence structure

Headings, tables and source notes make claims reviewable in native Word.

3

Approval boundary

The status and named reviewer remain visible before release or send.

A rendered preview of the realistic Word, Excel or PowerPoint artifact supplied in this lab folder.

Lab 1 — Process Map

Lab 1 — Professional Practice

1

Office add-ins

Best for editing the open Word, Excel, PowerPoint or Outlook item in its native structure.

2

M365 connector

Best for searching approved SharePoint, OneDrive, Outlook and Teams context from Claude.

3

Claude Cowork

Best for a bounded multi-step task across a folder, Project and connected tools.

4

Copilot experiences

A separate Microsoft-managed surface whose availability and governance depend on the tenant.

Choose and Activate the Right Claude Surface

✓ ACCEPTANCE CHECK

Every example task has one preferred surface, one governed fallback, a permission owner and a human approval point; no credential is stored in any learner-facing file.

INSPECT

Open the native artifact and challenge its sources, formulas, structure and versions.

RECONCILE

Confirm every material figure or claim against the approved evidence location.

ENDORSE

Record the named reviewer before accepting, saving, releasing or sending the work.

Connect Microsoft 365 Context and Map Permissions

LAB 2

Build a source-and-permission register for Lumina Living's SharePoint, OneDrive, Outlook and Teams planning evidence.

You'll build

A least-privilege source register with access status, evidence owner, retention note and approved use.

Tools: Microsoft 365 connector, Microsoft Entra, delegated permissions, SharePoint, OneDrive, Outlook, Teams

Claude-Generated Company Work Sample

WHAT TO NOTICE

C197 · CLAUDE-GENERATED WORK SAMPLE

Connect Microsoft 365 Context and Map Permissions

Lumina Living Pte Ltd · Illustrative reviewed output

Management outcome Which sources and tools should be enabled for each role?

Management outcome
Connect approved Microsoft 365 context and map what Claude may read or write.

Evidence boundary
SharePoint Strategy site; OneDrive project folder; Outlook planning mailbox; Teams leadership chat

Approval
Final approval: Head of IT and Data Protection Officer

Source and approval note
Illustrative output generated for training from fictional Lumina Living sources. Figures and claims require source reconciliation. Release status: Pending named human approval.

1

Business outcome

The opening section states the management decision and intended use.

2

Evidence structure

Headings, tables and source notes make claims reviewable in native Word.

3

Approval boundary

The status and named reviewer remain visible before release or send.

A rendered preview of the realistic Word, Excel or PowerPoint artifact supplied in this lab folder.

Lab 2 — Process Map

Lab 2 — Professional Practice

1

Delegated access

Claude acts through the signed-in user and cannot exceed that user's Microsoft 365 permissions.

2

Read-first rollout

Search and summarise approved context before enabling any create, update or send capability.

3

Two consent layers

Organisation enablement and Microsoft Entra administrator consent precede individual connection.

4

Write-tool boundary

Email, calendar and file writes need additional scopes, policy approval and stronger review.

Connect Microsoft 365 Context and Map Permissions

✓ ACCEPTANCE CHECK

The source register reconciles to the connector results, every source has an owner and approved use, and write tools are either explicitly authorised or documented as unavailable.

INSPECT

Open the native artifact and challenge its sources, formulas, structure and versions.

RECONCILE

Confirm every material figure or claim against the approved evidence location.

ENDORSE

Record the named reviewer before accepting, saving, releasing or sending the work.

Build an Auditable Prompt and Review Contract

LAB 3

Turn vague requests into professional prompt contracts for Word, Excel and PowerPoint, then log evidence and review outcomes.

You'll build

A reusable cross-app prompt library, prompt test log and acceptance checklist.

Tools: Prompt architecture, evidence clauses, stop rules, output contracts, review log

Claude-Generated Company Work Sample

WHAT TO NOTICE

C197 · CLAUDE-GENERATED WORK SAMPLE

Build an Auditable Prompt and Review Contract

Lumina Living Pte Ltd · Illustrative reviewed output

Management outcome Which prompt elements are mandatory for a company-standard AI workflow?

Management outcome
Write reusable prompts that ground evidence, constrain edits and define human approval.

Evidence boundary
FY2027 planning brief; Company style guide; Data dictionary; Approval matrix

Approval
Final approval: Director, Strategy

Source and approval note
Illustrative output generated for training from fictional Lumina Living sources. Figures and claims require source reconciliation. Release status: Pending named human approval.

1

Business outcome

The opening section states the management decision and intended use.

2

Evidence structure

Headings, tables and source notes make claims reviewable in native Word.

3

Approval boundary

The status and named reviewer remain visible before release or send.

A rendered preview of the realistic Word, Excel or PowerPoint artifact supplied in this lab folder.

Lab 3 — Process Map

Lab 3 — Professional Practice

1

Outcome

Name the decision, audience and work product instead of asking for generic help.

2

Evidence

Name the open file, table, range, section or messages and require citations.

3

Constraints

Specify what must be preserved, excluded, limited or escalated.

4

Approval

Ask for a proposal first and keep final acceptance, save and send with the authorised user.

Build an Auditable Prompt and Review Contract

✓ ACCEPTANCE CHECK

The Word, Excel and PowerPoint prompts each name a business result, approved evidence, constraints, output format, verification method, stop rule and human approval gate.

INSPECT

Open the native artifact and challenge its sources, formulas, structure and versions.

RECONCILE

Confirm every material figure or claim against the approved evidence location.

ENDORSE

Record the named reviewer before accepting, saving, releasing or sending the work.

TOPIC RECAP

Recap — Governed Foundations for Claude and Microsoft 365

1

Capability — Select and activate the Claude surface that fits a governed Lumina Living task.

2

Evidence retained — A completed operating-surface decision matrix and environment-readiness record.

3

Capability — Connect approved Microsoft 365 context and map what Claude may read or write.

4

Evidence retained — A least-privilege source register with access status, evidence owner, retention note and approved use.

5

Capability — Write reusable prompts that ground evidence, constrain edits and define human approval.

6

Evidence retained — A reusable cross-app prompt library, prompt test log and acceptance checklist.

TOPIC 02

Company Planning, Reporting and Policy Work

Marketing planning · strategic planning · sustainability reporting · HR policy · management review

COURSE COVERAGE 28%

Key Concepts — Company Planning, Reporting and Policy Work

1

Marketing planning — connect business goals, customer segments, channel choices, campaign actions, budget and measurable outcomes.

2

Strategic planning — turn evidence into explicit choices, initiatives, owners, dependencies, targets and review dates.

3

Sustainability reporting — define the reporting boundary, method, source owner and limitation before drafting a credible narrative.

4

HR policy — separate policy intent, operational procedure and legal interpretation; require authorised HR and legal review before release.

5

Template fidelity — work inside approved Word styles and tables so outputs fit the company's document system rather than becoming detached chat text.

6

Management review — label facts, calculations, assumptions and recommendations so decision makers can challenge each layer.

WHAT YOU'LL DO

Hands-On Labs — Company Planning, Reporting and Policy Work

Lab 4

- Create a Company Marketing Plan in Word — A reviewed FY2027 marketing plan in Word with an evidence appendix and management decision page.

Lab 5

- Develop a Strategic Plan with Owners and Measures — A three-year strategic plan, initiative portfolio and quarterly review scorecard in Word and Excel.

Lab 6

- Draft Sustainability Reporting and HR Policy — A sustainability performance section, metric register and flexible-work policy draft with review and approval records.

Create a Company Marketing Plan in Word

LAB 4

Turn an approved commercial brief, customer evidence and budget envelope into a structured marketing plan with objectives, segments, channels, actions, KPIs and approvals.

You'll build

A reviewed FY2027 marketing plan in Word with an evidence appendix and management decision page.

Tools: Claude for Word, company styles, selected-text editing, comments, tracked changes, evidence register

Claude-Generated Company Work Sample

WHAT TO NOTICE

C197 · CLAUDE-GENERATED WORK SAMPLE

Create a Company Marketing Plan in Word

Lumina Living Pte Ltd · Illustrative reviewed output

Management outcome Which segments, channels and campaigns should receive the marketing budget?

Executive decision
Prioritise repeat customers and profitable digital growth while pausing broad discount-led acquisition.

Marketing choices
Focus owned channels, targeted lifecycle campaigns and higher-margin product stories.

Finding / choice	Evidence	Owner	Next review
Marketing choices item 1	FY2026 channel results	Marketing and E-commerce	Q1 FY2027
Marketing choices item 2	Customer segment note	Marketing and E-commerce	Q2 FY2027
Marketing choices item 3	Campaign calendar	Marketing and E-commerce	Q3 FY2027

90-day action
Launch two measured pilots with stop/go rules, accountable owners and a reconciled budget.

Source and approval note
Illustrative output generated for training from fictional Lumina Living sources. Figures and claims require source reconciliation. Release status: Pending named human approval.

1

Business outcome

The opening section states the management decision and intended use.

2

Evidence structure

Headings, tables and source notes make claims reviewable in native Word.

3

Approval boundary

The status and named reviewer remain visible before release or send.

A rendered preview of the realistic Word, Excel or PowerPoint artifact supplied in this lab folder.

Lab 4 — Process Map

Lab 4 — Professional Practice

1

Choice, not a list

Prioritise segments and channels; explain what the company will not fund.

2

Budget connects to action

Every major campaign has an owner, cost, measure and review date.

3

Evidence stays visible

Cite the customer or financial source behind each material recommendation.

4

Native Word structure

Preserve approved headings, tables, numbering, comments and change tracking.

Create a Company Marketing Plan in Word

✓ ACCEPTANCE CHECK

The Word plan uses company styles, reconciles to the marketing budget, contains three clear choices and one non-priority, and every material claim has a source or missing-evidence flag.

INSPECT

Open the native artifact and challenge its sources, formulas, structure and versions.

RECONCILE

Confirm every material figure or claim against the approved evidence location.

ENDORSE

Record the named reviewer before accepting, saving, releasing or sending the work.

Develop a Strategic Plan with Owners and Measures

LAB 5

Translate Lumina Living's ambition into a strategy-on-a-page, initiative portfolio and governance rhythm that management can execute.

You'll build

A three-year strategic plan, initiative portfolio and quarterly review scorecard in Word and Excel.

Tools: Claude for Word, Claude for Excel, strategy-on-a-page, initiative portfolio, risk and dependency review

Claude-Generated Company Work Sample

WHAT TO NOTICE

C197 · CLAUDE-GENERATED WORK SAMPLE

Develop a Strategic Plan with Owners and Measures

Lumina Living Pte Ltd · Illustrative reviewed output

Management outcome Which strategic choices and initiatives should the Executive Committee approve?

Strategic ambition
Build a profitable omnichannel growth engine with a differentiated home-lifestyle proposition.

Strategic choices
Win in curated ranges, integrate customer journeys and strengthen commercial execution.

Finding / choice	Evidence	Owner	Next review
Strategic choices item 1	CEO ambition note	Corporate Strategy	Q1 FY2027
Strategic choices item 2	Commercial performance summary	Corporate Strategy	Q2 FY2027
Strategic choices item 3	Operations capability review	Corporate Strategy	Q3 FY2027

Governance
Six initiatives report through a quarterly scorecard with explicit dependencies and risk owners.

Source and approval note
Illustrative output generated for training from fictional Lumina Living sources. Figures and claims require source reconciliation. Release status: Pending named human approval.

1

Business outcome

The opening section states the management decision and intended use.

2

Evidence structure

Headings, tables and source notes make claims reviewable in native Word.

3

Approval boundary

The status and named reviewer remain visible before release or send.

A rendered preview of the realistic Word, Excel or PowerPoint artifact supplied in this lab folder.

Lab 5 — Process Map

Lab 5 — Professional Practice

1

Choice architecture

A strategy selects where to play, how to win and what not to do.

2

Initiatives have owners

Each priority carries an accountable executive, milestones, measures and dependencies.

3

Measures balance outcomes

Combine financial, customer, operational and capability indicators.

4

Review drives action

A quarterly cadence tests assumptions and reallocates resources when evidence changes.

Develop a Strategic Plan with Owners and Measures

✓ ACCEPTANCE CHECK

The strategy contains explicit choices and trade-offs, six owned initiatives, balanced measures with sources, a governance cadence and a resolved high-impact risk review.

INSPECT

Open the native artifact and challenge its sources, formulas, structure and versions.

RECONCILE

Confirm every material figure or claim against the approved evidence location.

ENDORSE

Record the named reviewer before accepting, saving, releasing or sending the work.

Draft Sustainability Reporting and HR Policy

LAB 6

Create a management sustainability report section and a flexible-work HR policy while separating evidence, interpretation, procedure and legal review.

You'll build

A sustainability performance section, metric register and flexible-work policy draft with review and approval records.

Tools: Claude for Word, reporting boundary, metric methodology, HR policy drafting, comments, approval workflow

Claude-Generated Company Work Sample

WHAT TO NOTICE

C197 · CLAUDE-GENERATED WORK SAMPLE

Draft Sustainability Reporting and HR Policy

Lumina Living Pte Ltd · Illustrative reviewed output

Management outcome Is the evidence and control environment strong enough for internal release?

Reporting boundary
Singapore retail, office and directly controlled e-commerce operations for FY2026.

Sustainability performance
Energy and waste movements are reported with method notes and limitations; no unsupported green claim is made.

Flexible-work policy
Eligibility is role-based, decisions are documented and exceptions have a transparent review route.

Source and approval note
Illustrative output generated for training from fictional Lumina Living sources. Figures and claims require source reconciliation. Release status: Pending named human approval.

1

Business outcome

The opening section states the management decision and intended use.

2

Evidence structure

Headings, tables and source notes make claims reviewable in native Word.

3

Approval boundary

The status and named reviewer remain visible before release or send.

A rendered preview of the realistic Word, Excel or PowerPoint artifact supplied in this lab folder.

Lab 6 — Process Map

Lab 6 — Professional Practice

1

Boundary before narrative

State entities, sites, period, method and exclusions before describing performance.

2

Numbers need lineage

Every metric names the source system, owner, unit, method and limitation.

3

Policy is not legal advice

AI drafts require authorised HR and legal review before organisational release.

4

Exceptions are designed

Eligibility, decision rights, escalation and record keeping prevent an attractive policy from becoming unusable.

Draft Sustainability Reporting and HR Policy

✓ ACCEPTANCE CHECK

The sustainability section states its boundary and limitations and reconciles every metric; the HR policy separates policy from procedure and carries named HR, legal, security and management reviews.

INSPECT

Open the native artifact and challenge its sources, formulas, structure and versions.

RECONCILE

Confirm every material figure or claim against the approved evidence location.

ENDORSE

Record the named reviewer before accepting, saving, releasing or sending the work.

Recap — Company Planning, Reporting and Policy Work

1

Capability — Produce a decision-ready FY2027 marketing plan in the Lumina Living Word template.

2

Evidence retained — A reviewed FY2027 marketing plan in Word with an evidence appendix and management decision page.

3

Capability — Develop an aligned strategic plan with explicit choices, initiatives, owners, measures and risks.

4

Evidence retained — A three-year strategic plan, initiative portfolio and quarterly review scorecard in Word and Excel.

5

Capability — Draft source-aware sustainability reporting and an HR policy with appropriate review controls.

6

Evidence retained — A sustainability performance section, metric register and flexible-work policy draft with review and approval records.

TOPIC 03

Financial Analysis and Executive Storytelling

Excel modelling · controls · KPI dashboard · native charts · strategic and marketing PowerPoint

Key Concepts — Financial Analysis and Executive Storytelling

1

Financial model architecture — separate assumptions, transaction data, calculations, outputs and review notes so changes remain traceable.

2

Formula-first analysis — use dynamic formulas, tables and pivot-ready structures instead of pasted totals or unexplained AI answers.

3

Decision-led dashboard — combine a small set of KPIs, trends, variances and definitions around the questions management must answer.

4

Chart integrity — choose the visual for the question, keep native Excel sources, verify scale and units, and avoid implying causation without evidence.

5

Message-first presentation — every slide title states a conclusion; supporting detail goes into speaker notes, appendix or source register.

6

Beyond one-click slides — professional value comes from an editable company template, native charts, coherent narrative, source traceability and deliberate visual hierarchy.

WHAT YOU'LL DO

Hands-On Labs — Financial Analysis and Executive Storytelling

Lab 7

- Build Financial Analysis and an Excel Dashboard — A controlled FY2026 financial workbook with actual-vs-budget analysis, scenarios, three native charts and an executive dashboard.

Lab 8

- Create an Executive Strategy and Marketing Deck — A ten-slide strategic and marketing presentation with native Excel charts, varied layouts and an executive decision page.

Build Financial Analysis and an Excel Dashboard

LAB 7

Move from transaction data and budget assumptions to formula-driven analysis, scenario testing, native charts and a one-screen management dashboard.

You'll build

A controlled FY2026 financial workbook with actual-vs-budget analysis, scenarios, three native charts and an executive dashboard.

Tools: Claude for Excel, tables, formulas, pivots, scenarios, chart selection, dashboard, audit log

Claude-Generated Company Work Sample

A rendered preview of the realistic Word, Excel or PowerPoint artifact supplied in this lab folder.

Lab 7 — Process Map

Lab 7 — Professional Practice

1

Model architecture

Separate Assumptions, Transactions, Budget, Analysis, Dashboard and Audit Log.

2

No pasted answers

Keep calculations live in formulas or pivots and cite the source range.

3

Charts answer decisions

Use trend, variance and driver visuals with honest scales and units.

4

Review like a finance leader

Challenge timing, hardcodes, range gaps, margin logic and scenario sensitivity.

Build Financial Analysis and an Excel Dashboard

✓ ACCEPTANCE CHECK

The model has no formula errors, all four KPIs reconcile, scenarios change through named assumptions, three native charts answer management questions and the audit log records independent checks.

INSPECT

Open the native artifact and challenge its sources, formulas, structure and versions.

RECONCILE

Confirm every material figure or claim against the approved evidence location.

ENDORSE

Record the named reviewer before accepting, saving, releasing or sending the work.

Create an Executive Strategy and Marketing Deck

LAB 8

Build a company-standard Executive Committee presentation with a coherent decision story, native charts, process maps, evidence notes and meaningful speaker notes.

You'll build

A ten-slide strategic and marketing presentation with native Excel charts, varied layouts and an executive decision page.

Tools: Claude for PowerPoint, slide master, native Excel charts, process maps, executive narrative, speaker notes, visual QA

Claude-Generated Company Work Sample

A rendered preview of the realistic Word, Excel or PowerPoint artifact supplied in this lab folder.

Lab 8 — Process Map

Lab 8 — Professional Practice

1

Better than one-click

Use real company evidence, deliberate hierarchy and an editable template—not generic generated decoration.

2

Conclusion-led titles

Every title states the point management should understand or decide.

3

Native evidence

Excel charts remain editable and trace to approved ranges; source notes sit on data slides.

4

Visual rhythm

Alternate scorecards, charts, comparisons, process maps and decision cards without lowering readability.

Create an Executive Strategy and Marketing Deck

✓ ACCEPTANCE CHECK

The ten-slide deck uses the company master, shows verified native Excel charts, contains varied substantive visuals and speaker notes, and reconciles every figure and decision with the approved source pack.

INSPECT

Open the native artifact and challenge its sources, formulas, structure and versions.

RECONCILE

Confirm every material figure or claim against the approved evidence location.

ENDORSE

Record the named reviewer before accepting, saving, releasing or sending the work.

TOPIC RECAP

Recap — Financial Analysis and Executive Storytelling

1

Capability — Build an auditable financial model and management dashboard in Excel with Claude.

2

Evidence retained — A controlled FY2026 financial workbook with actual-vs-budget analysis, scenarios, three native charts and an executive dashboard.

3

Capability — Create a highly visual, editable PowerPoint that integrates strategy, marketing and verified Excel charts.

4

Evidence retained — A ten-slide strategic and marketing presentation with native Excel charts, varied layouts and an executive decision page.

TOPIC 04

Agentic Coordination with Outlook, Cowork and Claude Code

Outlook triage and replies · Claude Cowork · Claude Code · Excel updates · email search · daily brief

Key Concepts — Agentic Coordination with Outlook, Cowork and Claude Code

1

Outlook control — Claude can triage and draft, but Claude for Outlook leaves replies and invitations in native compose forms for the authorised user to review and send.

2

Claude Cowork — a task-oriented Claude desktop mode that works across scoped folders, Projects, plugins and connected tools to produce real files over multiple steps.

3

Cowork plus Microsoft 365 — retrieve approved organisational context through the connector, work in a bounded project folder, then review the resulting Office files in the native add-ins.

4

Copilot Cowork is distinct — Microsoft's Cowork experience lives inside Microsoft 365 Copilot and has its own licensing, governance and action-approval model even when Anthropic models are used.

5

Claude Code automation — local scripts and approved MCP connectors can update a workbook, search relevant mail and assemble a repeatable daily brief with explicit tool approvals.

6

Safe automation boundary — read and draft first, validate recipients and versions, and reserve consequential write or send actions for explicit approval.

Hands-On Labs — Agentic Coordination with Outlook, Cowork and Claude Code

Lab 9

- Triage and Prepare Approved Outlook Replies — A triage queue, cited thread summary, approved reply templates, draft responses and an unsent meeting invitation.

Lab 10

- Coordinate the Planning Pack with Claude Cowork — A Cowork project folder, execution plan, consolidated management brief, discrepancy log and reviewed Office hand-off.

Lab 11

- Automate Excel, Outlook and a Daily Brief with Claude Code — A reviewed automation plan, local workbook-update script, connector-assisted Outlook search and generated daily brief with run log.

Triage and Prepare Approved Outlook Replies

LAB 9

Use Claude for Outlook and approved Microsoft 365 context to classify planning mail, summarise threads, prepare draft replies and coordinate meetings without silently sending anything.

You'll build

A triage queue, cited thread summary, approved reply templates, draft responses and an unsent meeting invitation.

Tools: Claude for Outlook beta, Outlook categories, thread citations, reply templates, calendar, approval queue

Claude-Generated Company Work Sample

WHAT TO NOTICE

C197 · CLAUDE-GENERATED WORK SAMPLE

Triage and Prepare Approved Outlook Replies

Lumina Living Pte Ltd · Illustrative reviewed output

Management outcome Which messages need escalation, a standard draft, a tailored reply or no action?

Thread summary
The Executive Committee needs the reviewed pack, three owned actions and a confirmed review date.

Draft response
A concise reply confirms decisions and attachments and remains unsent until recipient and version checks are complete.

Meeting brief
Purpose, agenda, pre-read and one decision required are explicit.

Source and approval note
Illustrative output generated for training from fictional Lumina Living sources. Figures and claims require source reconciliation. Release status: Pending named human approval.

1

Business outcome

The opening section states the management decision and intended use.

2

Evidence structure

Headings, tables and source notes make claims reviewable in native Word.

3

Approval boundary

The status and named reviewer remain visible before release or send.

A rendered preview of the realistic Word, Excel or PowerPoint artifact supplied in this lab folder.

Lab 9 — Process Map

Lab 9 — Professional Practice

1

Rules before generation

Define category, priority, SLA, reply eligibility and escalation before asking Claude to draft.

2

Thread evidence

Capture decisions, owners and deadlines with citations to the specific message.

3

Auto-draft, not auto-send

Claude for Outlook leaves drafts and invitations in Outlook for the authorised user.

4

Consequential details

Recipients, attachments, dates, amounts and promises receive explicit human checks.

Triage and Prepare Approved Outlook Replies

✓ ACCEPTANCE CHECK

The triage queue is complete, the thread summary cites every decision, each draft uses an approved template and the reviewer has checked recipients, content, attachments and deadline before any send action.

INSPECT

Open the native artifact and challenge its sources, formulas, structure and versions.

RECONCILE

Confirm every material figure or claim against the approved evidence location.

ENDORSE

Record the named reviewer before accepting, saving, releasing or sending the work.

Coordinate the Planning Pack with Claude Cowork

LAB 10

Set up a scoped Cowork project, bring in approved Microsoft 365 evidence, create a multi-step plan and deliver reviewed Office files back to the company workflow.

You'll build

A Cowork project folder, execution plan, consolidated management brief, discrepancy log and reviewed Office hand-off.

Tools: Claude Cowork, work folder, Projects, plugins, Microsoft 365 connector, multi-step execution, approvals

Claude-Generated Company Work Sample

WHAT TO NOTICE

C197 · CLAUDE-GENERATED WORK SAMPLE

Coordinate the Planning Pack with Claude Cowork

Lumina Living Pte Ltd · Illustrative reviewed output

Management outcome Can the planning pack proceed to Executive Committee review without unresolved evidence or version conflicts?

Cowork hand-off
The scoped project reconciles source files before generating a two-page management brief.

Discrepancy control
Figures, owners, dates, versions and approvals are resolved in the authoritative source.

Native review
Generated files return to Word, Excel and PowerPoint for tracked human review.

Source and approval note
Illustrative output generated for training from fictional Lumina Living sources. Figures and claims require source reconciliation. Release status: Pending named human approval.

1

Business outcome

The opening section states the management decision and intended use.

2

Evidence structure

Headings, tables and source notes make claims reviewable in native Word.

3

Approval boundary

The status and named reviewer remain visible before release or send.

A rendered preview of the realistic Word, Excel or PowerPoint artifact supplied in this lab folder.

Lab 10 — Process Map

Lab 10 — Professional Practice

1

Bounded workspace

Give Cowork one project folder or Project, not uncontrolled access to unrelated files.

2

Connector supplies context

Search approved SharePoint, OneDrive, Outlook and Teams evidence through delegated permissions.

3

Cowork executes over steps

It can inspect inputs, create real files, update the plan and surface checkpoints.

4

Office add-ins finish the work

Open generated Word, Excel and PowerPoint files in the native apps for tracked review and approval.

Coordinate the Planning Pack with Claude Cowork

✓ ACCEPTANCE CHECK

Cowork worked only inside the scoped project, produced a visible plan and discrepancy log, and every generated Office artifact was reviewed in its native app before the hand-off was approved.

INSPECT

Open the native artifact and challenge its sources, formulas, structure and versions.

RECONCILE

Confirm every material figure or claim against the approved evidence location.

ENDORSE

Record the named reviewer before accepting, saving, releasing or sending the work.

Automate Excel, Outlook and a Daily Brief with Claude Code

LAB 11

Build a safe, repeatable work process that refreshes a local Excel control workbook, searches approved planning mail and generates a source-linked daily brief without embedding secrets or auto-sending messages.

You'll build

A reviewed automation plan, local workbook-update script, connector-assisted Outlook search and generated daily brief with run log.

Tools: Claude Code, MCP, Microsoft 365 connector, Python, openpyxl, python-docx, run log, approval gates

Claude-Generated Company Work Sample

WHAT TO NOTICE

C197 · CLAUDE-GENERATED WORK SAMPLE

Automate Excel, Outlook and a Daily Brief with Claude Code

Lumina Living Pte Ltd · Illustrative reviewed output

Management outcome Which KPI exception, decision request or overdue action needs management attention today?

Daily headline

One margin exception and two overdue actions require management attention today.

Evidence

KPI exceptions cite workbook cells and decisions cite approved Outlook messages.

Finding / choice	Evidence	Owner	Next review
Evidence item 1	Daily control workbook	Business Performance	Q1 FY2027
Evidence item 2	Approved Outlook planning mail	Business Performance	Q2 FY2027
Evidence item 3	Brief template	Business Performance	Q3 FY2027

Automation control

The run is idempotent, creates a backup, logs changes and does not send email.

Source and approval note

Illustrative output generated for training from fictional Lumina Living sources. Figures and claims require source reconciliation. Release status: Pending named human approval.

1

Business outcome

The opening section states the management decision and intended use.

2

Evidence structure

Headings, tables and source notes make claims reviewable in native Word.

3

Approval boundary

The status and named reviewer remain visible before release or send.

A rendered preview of the realistic Word, Excel or PowerPoint artifact supplied in this lab folder.

Lab 11 — Process Map

Lab 11 — Professional Practice

1

Connector inheritance

Claude.ai connectors can appear in Claude Code when signed in with the same Claude.ai subscription; verify with /mcp.

2

Local file automation

Use a small reviewed Python script to update workbook inputs and retain formulas, formats and audit entries.

3

Source-linked brief

Email findings cite the source message; KPI findings cite workbook cells or ranges.

4

No hidden side effects

The lab reads and drafts. Any external write or send action remains a separate explicit approval.

Automate Excel, Outlook and a Daily Brief with Claude Code

✓ ACCEPTANCE CHECK

The reviewed scripts run successfully, the updated workbook preserves formulas and charts, the daily brief cites Excel and Outlook evidence, the run log is complete and no email was sent or secret stored.

INSPECT

Open the native artifact and challenge its sources, formulas, structure and versions.

RECONCILE

Confirm every material figure or claim against the approved evidence location.

ENDORSE

Record the named reviewer before accepting, saving, releasing or sending the work.

TOPIC RECAP

Recap — Agentic Coordination with Outlook, Cowork and Claude Code

1

Capability — Triage Outlook messages and prepare consistent replies with a human send gate.

2

Evidence retained — A triage queue, cited thread summary, approved reply templates, draft responses and an unsent meeting invitation.

3

Capability — Use Claude Cowork and Microsoft 365 context to coordinate a bounded multi-file company task.

4

Evidence retained — A Cowork project folder, execution plan, consolidated management brief, discrepancy log and reviewed Office hand-off.

5

Capability — Use Claude Code and approved connectors to update Excel, search Outlook and produce a daily management brief.

6

Evidence retained — A reviewed automation plan, local workbook-update script, connector-assisted Outlook search and generated daily brief with run log.

WRAP-UP

Course Summary & Next Steps

What You Achieved

1

Choose the right Claude surface

Select the right Claude and Microsoft 365 operating surface for a governed company task.

2

Connect governed context

Connect approved Microsoft 365 context and map permissions, sources and evidence boundaries.

3

Prompt with an audit trail

Direct Claude with an auditable prompt contract and a human approval gate.

4

Plan marketing

Produce a decision-ready marketing plan in Word from approved company evidence.

5

Shape strategy

Develop an aligned strategic plan with choices, initiatives, owners, measures and risks.

6

Draft sustainability and HR content

Draft a sustainability report section and HR policy using source, legal and management review controls.

What You Achieved (cont.)

7

Analyse finance in Excel

Build a formula-driven financial analysis and executive dashboard in Excel.

8

Tell the story in PowerPoint

Create a highly visual strategic and marketing PowerPoint with native Excel charts and evidence traceability.

9

Coordinate Outlook safely

Triage Outlook messages and prepare approval-based replies without bypassing the human send gate.

10

Orchestrate with Claude Cowork

Use Claude Cowork with Microsoft 365 context to coordinate a multi-file planning workflow.

11

Automate with Claude Code

Use Claude Code and approved connectors to update Excel, search Outlook and produce a daily management brief.

Keep Practising After the Course

1

Re-run the labs on your own machine — repetition is what makes the skills stick.

2

Apply the techniques to a real process or project in your own organisation.

3

Your course material stays available at <https://lms-tms.tertiaryinfotech.com/>.

4

Explore the follow-on courses at www.tertiarycourses.com.sg.
