

Q1 Headcount Report

Human Resources · FICTIONAL COMPANY TRAINING MATERIAL

Summary

Total headcount at 31 March was 88, against a plan of 84. Retail is 2 over plan following the two new store openings. Warehouse is 4 over plan because replacement hiring for leavers overlapped with the peak-season temporary contracts.

Leavers

21 people left in the 12 months to March. Warehouse accounted for 9, online for 4, retail for 6 and office for 2. The warehouse leaver rate of 26.5% is the highest in the company and more than double the office rate.

Cost

Monthly staff cost at 31 March was \$253,400 against a plan of \$241,000. The variance is explained by the overlap described above and is expected to unwind by June.
