		and hiring, PowerPoint reporting, Outlook replies via the connector and Claude for Chrome, then Skills, Cowork, Scheduled tasks and Projects. All labs run on local files with five plain-English steps each.	
2.6	13 August 2026	Rebuilt the whole course around one HR scenario in plain English: 11 labs of five local steps each, no tenant or connector dependency, renamed lab folders and workbooks, and Lab 01 rewritten as a candidate shortlisting exercise that writes directly into Excel.	Jim Gan Chiu Liang (JL)
2.5	13 August 2026	Simplified Lab 01 to a trainer-led three-route demonstration, one controlled Outlook exercise and one learner checklist; moved the Prompt and Review Contract back to Lab 03. Corrected the Word, Excel and PowerPoint prompt examples to name the exact file each one requires, and marked the section as illustration rather than lab steps.	Jim Gan Chiu Liang (JL)
