

Exit Interview Themes — 12 months to March

Human Resources · FICTIONAL COMPANY TRAINING MATERIAL

Method

21 exit interviews were held. Themes were counted where a reason was raised without prompting. Percentages are of the 21 interviews, not of all staff.

What people said

Inflexible hours were raised in 9 interviews, concentrated in online and office roles. Pay was raised in 7, almost all warehouse. Lack of progression was raised in 5. Relations with a direct manager were raised in 3.

Note on warehouse

Warehouse leavers cited pay far more often than hours. A flexible-working policy is unlikely to change the warehouse figure on its own.
